

January 23, 2009

Dear Propeller Club of Los Angeles/ Long Beach,

I have dreamed of going to college since I was a little girl, especially because my parent didn't go to college due to their families low economic status and their parents not supporting them. I am glad to have the opportunity to thank you personally for your generosity. Without scholarship patrons like you, there would be many students such as myself unable to pursue the career they've dreamed of. This scholarship I received helped me more than you can imagine, there are no words to express my gratitude. Growing up during the last couple of years has not only brought financial and academic challenges, but it has more importantly made me realize the value of a college education.

I have just begun my undergraduate career as a freshman at UC Davis (University of California Davis) and can already report my academics off to a first-rate start. My plans at this stage are to complete a major in Managerial Economics. University of California Davis offers one of the finest programs in the country and I consider myself fortunate to be able to attend. Once again Thank you for contributing to making this dreams come true, I really appreciate it.

Sincerely,

Marlene Guardado
